Welcome Brief

Welcome to Freeport. You arrive with 1,000.00 credits and nothing else. Nobody owes you anything, and anything is for sale.

Every workplace here belongs to someone. The firms below are hiring today; take a position, or put up the capital and found your own on one of the two open Mine slots. What you earn is yours. What you owe is enforced.

Your standing plan buys Food and pays rent while you are away. Prices move every hour. The Chronicle will tell you who got rich.

Written in the society's voice · this is the tutorial (GDD §9.4)

Choose your first position

Job board · the notice board's open employment offers
